heard a falut sound of trickling water, and knew at once that a leak had sprung in that great embankment which saves Hollaud from the devastations of the hungry sea. It was early in the night, and no one was uear at hand. The leak was small when he found it, but he knew that the action of the water would eniarge it long before morning, and wash away the entire embankment, inundate the country and destroy his own and thousands of homes. So he bravely put his finger in the crevasse, and kept it there all the long night through, until help came and the opening was properly stopped. He had saved his country.
